

CHEM-TAB SMALL

AIRCONDITIONER TREATMENT TABLETS

DESCRIPTION

CHEM-TAB tablets eliminates maintenance problems such as odours, overflows and water damage caused by plugging drains.

CHEM-TAB tablets are easy to use, do not form any deposits in the pan or drain and are completely soluble.

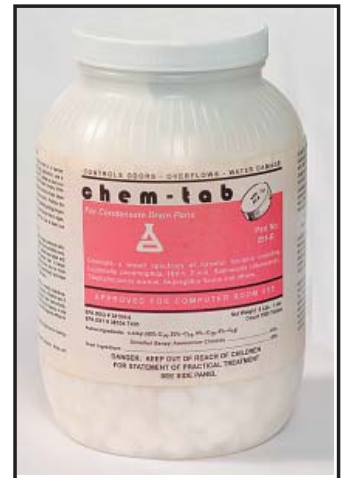

CHEM-TAB tablets prevent, stop and clean the algae (black), fungi and slime, thereby eliminating the odours caused by these organisms.

APPLICATIONS

Hospitals, Kitchens, Hotels/Motels, Office Buildings, Schools, Nursing Homes, Apartments and Food Processing Plants.

For room airconditioners, fan coils, refrigerators and vending machine humidifiers.

CHEM-TAB tablets are computer room safe.

LABEL INFORMATION

DIRECTIONS FOR USE

For the initial application, use a minimum of at least four **Chem-Tab** tablets to clean out heavy accumulations of bacteria, algae, black algae, fungus, slime and scale. Thereafter for good microorganism control, simply place one **Chem-Tab** tablet in each pan once a month. Position the tablet so the moisture drips on or runs over the tablet, plating the pan for positive prolonged cleaning action. To be sure the pan stays algae, black algae, odour, fungus, slime and scale free, use at least one **Chem-Tab** tablet for each three tons.

HUMIDIFIERS

For microorganism control of bacteria, algae, fungus, scale and odour merely drop two **Chem-Tab** tablets in the humidifier every four to six weeks. **Chem-Tab** tablets keep pads and humidifiers clean and scale free and protects against rust. In larger units or in hard water areas, use an additional one, two or more tablets. To get the best results, rinse reservoir periodically and wipe clean, then repeat **Chem-Tab** application.
