## We can customise builds, to suit your needs.

If your project calls for something **different, specific** or a **little out of the ordinary**, our **in-house manufacturing team** can make it happen.

Based right here in **Capalaba, Queensland**, our skilled team can work with you to tailor a solution that's the perfect fit for your application.

Everything is **handled under one roof**. Giving you **quality craftsmanship** and **peace of mind**.

Friendly, transparent communication every step of the way.

Proudly Australian

Custom solutions

Built in our own workshop

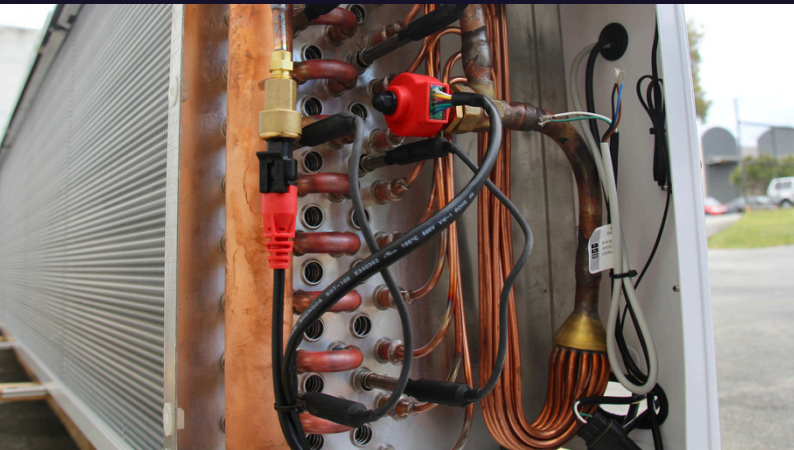

# What's hot..

## Our Most Popular Fitted Option Right Now...

### Carel EVD Ice

*(Electronic Expansion Valves)*

With our **in-house manufacturing team** able to readily fit these valves to your **MINT Evaporators**, you'll **save time** and enjoy **peace of mind** knowing it's **all handled under one roof**.

### Why customers love EVD Ice:

Energy efficient

Precise temperature control

Can be programmed to *any* refrigerant

Helps extend the life of your system

## Keeping up with the Industry.

Marcus and Filly recently travelled to Sydney for the **AIRAH Industry Night** and had the privilege of **showcasing MINT equipment** alongside our friends at **RDL (Refrigeration Distributors)**.

A great night **connecting with suppliers, customers**, learning about the **latest innovations** and keeping up with **industry trends**.
